## DEER RESISTANT ~ Perennials

No plants are deer proof. The trick to having a garden in deer country is making sure your garden is not the best buffet in town. The following is a list of plants that have been shown to be resistant, either by vigorous growth to recover from browsing or by unfavorable taste or texture. Deer cannot read, though, so a shortage of forage food can cause deer to devour almost any plants including the ones generally known to be deer resistant.

Baby Tears	Jerusalem Sage	Rockcress
Bee Balm	Lady's Mantle	Rosemary
Bellflower	Lamb Ears	Sage
Bishop's Hat	Larkspur	Shamrock
Black-eye Susan	Lily Turf	Spurge
Blanketflower	Lithodora	St. Johns Wort
Blue-eye Grass	Lupine	Stoke's Aster
Blue-eyes	Lychnis	Thift
Cat Mint	Meadowsweet	Tree Peony
Catnip	Mint	Wallflower
Columbine	Mondo Grass	Wormwood
Coneflower	Monkshood	Yarrow
Creep Phlox	N.Z. Flax	
Dahlia	Onion-Chives	
Forget-me-not	Pachysandra	
Foxglove	Piggy-back	
Germander	Pincushion
